

Dear Co-laborer in Christ,

Due to recent developments and various warranted reasons, it has become necessary for Living Waters Publications and The Way of the Master to adopt and implement a new copyright policy. Our new official policy, effective December 5, 2005, reads as follows:

“All Living Waters Publications and The Way of the Master resources are copyright protected. With the exception of the Hell’s Best Kept Secret and the True and False Conversion audio messages (along with any other resources that might appear in the “Free Duplication” section of our website), duplication of any ministry resources, whether intended for sale or free distribution, is strictly prohibited. This includes books, tracts, study guides, videos (DVD and VHS), CDs, MP3s, etc. We thank you for your cooperation and understanding.”

Please note that all previous oral or written agreements between LWP/WOTM and any individual or organization are hereby null and void, regardless of how recently such agreements were made. The above statement (made official on December 5th, 2005) is to replace all previous agreements.

If permission was previously granted to sell or freely distribute any of the above-mentioned resources, while the duplication of such resources must cease immediately, the sale and distribution of existing copies shall remain permissible until December 31st, 2005.

Please note that while the Hell’s Best Kept Secret and the True and False Conversion audio messages are copyright protected, we are currently granting unconditional permission for the duplication, and the *free* and unlimited distribution of these audio resources, in their unaltered form (along with any other resources that might appear in the “Free Duplication” section of our website). If duplicated, these resources can only be given away free of charge; they cannot be sold.

We thank you so much for your understanding. It has been quite difficult for us to implement this new policy; however, it has become an urgent necessity. It will always be our aim to maximize the effectiveness of this ministry for the purposes of furthering the gospel and equipping the saints. It is for this very reason that we have taken the necessary steps outlined in this notice.

Gratefully yours,

Emeal “E.Z.” Zwayne
General Manager
Living Waters Publications/The Way of the Master
